Haret

About us

Specialist in Premium Ecuadorian Fruits

Export Haret was created from the need to give real importance to us — the producers and farmers, the people who work the land every single day. That is why we export directly, hand in hand with each one of them. It is the most direct way to guarantee full traceability, quality, and satisfaction for our clients.

For this reason, Export Haret prioritizes quality with the highest standards, delivering our products to any part of the world as a true representation of who we are — a symbol of Ecuadorian pride.
